

OMEGA

Treats

“Because we care”

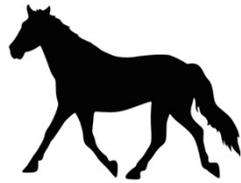

WHO WE ARE

We are animal lovers who wanted to do something special for our pets with regards to their everyday diet.

After completing our research, we found that salmon skins products were among the healthiest products. As we always want the best for our companions, we turned it into products to share with fellow animal lovers everywhere.

Omega Treats was founded for the purpose of supplying the animal food industry with our healthy treats and promote the lifespan longevity of your beloved pets.

Product: *Salmon*

Omega-6 fatty acids are essential to your pet's diet, along with omega-3 fatty acids. They're essential because your pet can't manufacture them on her/his own, meaning they need to be added to their diet.

<u>Nutritional Facts</u>	<u>Benefits</u>
Vitamin B12	Supplying the animal's body with ample amounts of cobalamin (cofactor in DNA synthesis) necessary for optimum health and wellness
Vitamin D	Kept in the fatty tissues of the body and the liver. It helps promote bone health and muscle and nerve control
Selenium	Antioxidant
Vitamin B3	Effective metabolism
Omega 6	Healthy skin and coat, prevents sterility, healthy growth in young animals, immune booster
Omega 3	Fetal development, improves the condition of eyes, skin and coat, boosts energy and bone and joint health, anti-inflammatory for arthritis & allergies, improves cognitive development in young animals and cognitive function in older animals
Protein	Healthier and shinier coat, improved skin health, lean muscle growth and a stronger immune system. Many senior animals can also benefit from high- protein foods.
Phosphorous	Prevents loose stools
Vitamin B6	Necessary for protein synthesis for healthy growth
Iodine	Controls metabolic rate, maintains optimal energy levels, boosts immunity and removes toxic chemicals
Choline	Important for aging animals. Choline produces the major nerve transmitter, acetylcholine. It helps the body maintain water balance and converts toxic compounds, reducing cardiac disease. Choline helps control cell growth and gene expression (process by which information from a gene is used in the synthesis of a functional gene product).
Pantothenic Acid	Beneficial for heart health and builds stamina
Biotin	Healthy skin and coat
